ABSTRACT

The secondary wood products manufacturers in Alberta were surveyed in late 1994 and early 1995. This Directory provides information only for those firms wishing to be listed. Each firm is listed by company, location, telephone number, facsimile number, executive officer, number of people employed, top five products manufactured, and raw materials (solid wood, sheet/panel products, or paper products) utilized in the manufacture of value-added wood products. Also provided in this Directory is an alphabetical listing of products and services. The companies offering the products or services are listed under each appropriate heading. Industry-related organizations and associations are listed at the back of the Directory.

ACKNOWLEDGEMENTS

This Directory could not have been completed without the cooperation and participation of the management and owners of the secondary wood products manufacturing firms in Alberta. Their contribution is gratefully acknowledged.

FOREWORD

This Directory lists and describes only those firms that wish to be included in the Directory of Secondary Wood Products Manufacturing in Alberta for 1995. The secondary wood products manufacturing industries include those principally engaged in the further processing of primary wood products, lumber, panel products and paper.

This Directory consists of firms manufacturing a wide range of products, including furniture and fixtures, architectural millwork, woodwork, remanufactured wood products, engineered building products, shakes and shingles, windows, doors, mouldings, cabinets, semi-finished and finished wood components, insulation board, coffins, and converted paper products.

The purpose of this directory is to provide information on the secondary manufacturing capabilities of the Alberta wood products industry. The information will be of interest to people who are buying these products for use or resale or who are interested in gaining access to supply for further manufacturing.

In 1994, 690 firms were identified as manufacturing value-added wood products in Alberta. These firms provide employment for 14,225 individuals.

The Canada-Alberta Forest Resource Development Agreement has also published the "Directory of Primary Wood Products Manufacturing in Alberta - 1995", which is available from the Regional Development Department of the Canadian Forest Service, 5320 - 122 Street, Edmonton, Alberta T6H 3S5, or the Forest Industry Development Branch of Alberta Economic Development and Tourism, 13th Floor Commerce Place, 10155 - 102 Street T5J 4L6.

ABBREVIATIONS

A number of abbreviations appear throughout this Directory, including those commonly used and accepted within the industry, as well as some created for the sole purpose of this publication. The following list provides the definition for each abbreviation appearing in this Directory.

CCA	chromated copper arsenate	MxSf	Mixed softwoods
CLS	Canadian Lumber Standards	OSB	oriented strandboard
CNC	computer numerical controls	PCP	pentachlorophenol
Ctwd	cottonwood	PnPn	Ponderosa pine
DgFr	Douglas-fir	PpHt	purple heart
FJ	finger-jointed	r-hdwd	recycled hardwood
hemfir	hemlock & fir	r-MxSp	recycled mixed species
insulbd	insulation board	r-sheet	recycled sheet/panel products
JkPn	jack pine	r-xxxx	recycled xxxxx
LpPn	lodgepole pine	RCdr	western red cedar
MDF	medium density fibreboard	SPF	spruce, pine, fir
MSR	machine stress rated	T&G	tongue & groove
MxHd	mixed hardwoods	WSpr	white spruce

HOW TO USE THIS DIRECTORY

Section I - Company Listings

This section provides a list of firms in alphabetical order. Included in each entry is the company name, address, telephone and facsimile (fax) numbers, executive officer, number of staff, products manufactured by the firm, and the raw materials utilized by the firm in the manufacture of their products.

Up to five (5) products manufactured by the firm are listed in order of importance to the firm (from highest to lowest). All product names and/or identification were provided by the firm, however, in some cases the wording has been changed slightly to conform to the overall product list.

Raw materials have been grouped into three categories: solid wood; sheet/panel products; and paper products. Although these categories have been separated into columns, the columns are not identified. Each category may have up to five (5) species or types of product, listed in order of volumes used (from highest to lowest).

Section II - Products and Services

The information in this section is arranged by products and services. It provides an alphabetical listing of products manufactured and services provided by the firms. If a firm produces a number of different products or services, it will be listed under each of the appropriate product headings.

Section III - Organizations/Associations

This section provides a list of industry-related organizations and associations in alphabetical order, including each one's address, telephone and fax number.

SECTION I

COMPANY LISTINGS

1. **A & A Post & Rails**
 244, 1935 - 32 Avenue NE
 Calgary, AB T2E 7C8
